Re: Discontinuance of Chemtrol Pipe

Due to changes within our supply chain, NIBCO will discontinue offering Chemtrol Schedule 80 Black and Natural Polypropylene pipe, and Chemtrol Schedule 80 Red and Natural PVDF pipe. This change will be effective immediately.

This has **no** effect on our current line of Chemtrol fittings and valves. With more than 60 years experience in industrial thermoplastics, NIBCO remains committed to being your manufacturing source for these engineered products that work in the most demanding environments.

To assist you with your transition to a new pipe supplier, we have identified SWM International whose engineering-grade pipe is compatible with our Chemtrol fittings and valves. We are working closely with SWM to take over all open orders. For more information, please call 1.800.521.6713, ext. 3130 or email PACS@swmintl.com.

If you have questions, please contact your NIBCO sales or customer service representative. Thank you for your continued support of NIBCO products.

Sincerely,

NIBCO INC.
