Diamond Netting

# Diamond Net & Mesh for Packaging

# SWM International - Your Materials Partner

SWM can take care of all your packaging needs with our Vexar™ portfolio of products. We understand the need to differentiate your packaging with exceptional design and performance. SWM offers the highest level of performance and the industry's leading quality and food safety programs with 100% FDA approved resins and colorants.

Vexar is made from flexible but durable extruded plastic netting that gently conforms around delicate produce while providing the strength needed to contain and protect. Vexar net is freezer-safe and heat compatible with an open mesh design that provides superior breathability and product visibility.

## Differentiate Your Packaging with SWM Capabilities for:

- Automation
- Branding & labeling
- Biodegradable & compostable
- Color options
- Build your own bags
- Engineering & design
- Variety of packaging styles
- Performance & product protection
- Stock produce bags

## Featured Products

Vexar<sup>®</sup>

## NET CLIPPER NET & MESH

Available in both knitted and extruded tubular netting, Vexar tubular mesh for net clippers provides superior strength and consistent performance on all major brands of net-clipping equipment. SWM manufactures a variety of knitted and extruded rope netting products to support almost any net clipper application.

- Industry-leading strength to weight ratios
- Excellent stretch width control for smooth operation and uniform packing
- Extended roll size capabilities reduce the frequency of roll changeovers
- Consistent performance on Volm®, Daumar®, Affeldt® and other clipping equipment

## FF&S AND AUTOMATIC BAGGING NET & MESH

With a broad range of tubular and flat mesh technologies to support almost any automated bagging application SWM offers a complete line of Vexar Form, Fill and Seal (FF&S) products that are designed to work as drop-in replacements for your existing mesh product and will typically require no adjustments to your packing equipment.

## KNITTED "SOFT" TUBULAR NET & MESH

Available in a wide range of sizes and colors for packing citrus, onions, avocados, apples, and many other types of fresh, whole produce. Also ideal for smoking meats.

- Superior strength and seal-ability
- Consistent performance on Daumar®, Giro®, Sorma® and other carry-bag equipment

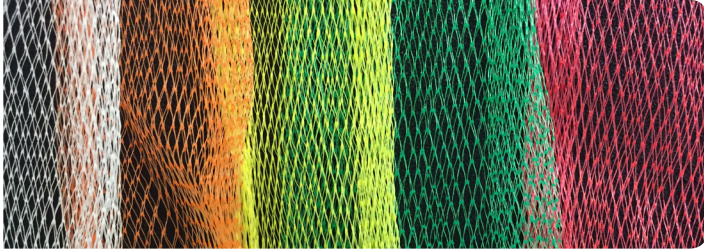

## FLAT ROLLSTOCK NET & MESH

With the world's most diverse capabilities in flat rollstock production, SWM has rollstock options for automatic packaging.

- Multiple diamond mesh or oriented square mesh
- Custom designed Polyethylene (PE) materials that are designed to heat seal to itself or film
- Consistent performance on Jasa®, Affeldt® and vertical FF&S equipment

## Net Color Options

Net is available in a wide variety of stock colors to best highlight your merchandise and your brand.

### Vexar Key Benefits:

- Provide consumers with a 360° view of your products
- Maintain a tight, attractive cylinder shape when loaded
- Use 50% to 90% less plastic than poly bags or clamshells
- Available in a variety of forms to accommodate automated or hand-packing
- Easy to fill and can be closed with nearly any closure

### Header Bag Label Options:

- Process print up to 8 colors available
- Substrates include laminated paper, coated paper, kraft paper, card stock and poly
- Standards widths are 5.5", 6.25", 7.5" or choose your own custom size
- Multiple generic labels available or custom graphics with your artwork
- Branding position is available as a header or footer label
- Sequential bag numbering available for traceability

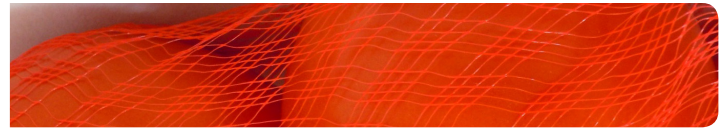

## Netting Styles

### Single-Strand Diamond Net

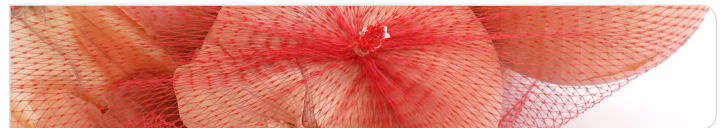

- Superior balance of cost and performance, ideal for retail products, durable produce (such as citrus or onions) and shellfish
- Many different strengths and stretch widths depending on product weight and size

### Multi-Strand Net

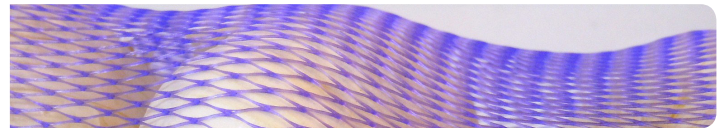

- Soft yet protective for delicate items
- Available in 3 and 4 strand net design

### Fine Count Net

- Finer mesh design works great with produce that shed hulls/debris or merchandise with small, loose parts

### Memory Net

- Conforms to irregular shapes
- Securely holds items from moving in the package
